

# REDRY SHIELD

## GENERAL

Pandser Redry Shield is a problem-solving water absorber in granular form, which can be used specifically for leakages and flooding. Pandser Redry Shield is made of acrylamide copolymer and absorbs up to about 200 times its own weight in water.

## APPLICATIONS

Pandser Redry Shield is an ideal problem solver for:

- Roofing and Gutter repairs
- Extracting moisture from hard floors (wood, concrete, tiles)
- Flooding on the floor covering

## AVAILABILITY

| Product description            | Article number | EAN Code      |
|--------------------------------|----------------|---------------|
| Pandser ReDry Shield, 800 gram | WKFE450-1001   | 8713331029542 |

## APPLICATION

Store Pandser Redry Shield in dry, well-ventilated area at min. +5°C to +30°C, in the original sealed packaging, and for up to 24 months after production date.

### Roof and gutter repairs:

- Sprinkle a layer of Pandser Redry Shield of at least 2x the water height well around the area to be repaired.
- The absorbed water creates a water-sealing/closing dike.
- Then spread a thin layer of Pandser Redry Shield on the area to be repaired.
- Wipe off this thin layer after about 5 minutes, leaving the roofing or gutter drier and ready for repair.

### Remove moisture from hard floors (concrete or tiled floors) in case of flooding and/or water damage caused by e.g. fire:

- Sprinkle a thin layer of Pandser Redry Shield over the wet concrete or tile floor.
- Let it soak in for about 5 to 10 minutes.
- Remove the granulate with broom or suitable vacuum cleaner.

### Flooding on the floor covering/carpets:

- Sprinkle Pandser Redry Shield over the wet spot and, if necessary, dab it into the floor covering.
- Let it retract for about 5 to 10 minutes.
- Remove the granules with a broom or suitable vacuum cleaner.

Repeat the actions, if moisture is still present. When the work is finished, always dispose of the remaining granulate by throwing it in the grey waste container.

## SAFETY DATA SHEET

For current and detailed information regarding chemical composition, safety aspects, handling, transport, storage and personal protection, etc., please refer to the Safety Data Sheet (SDS) of this product. . [www.berdal.com/downloads](http://www.berdal.com/downloads) of [www.pandser.com](http://www.pandser.com) .

### Disclaimer

CAUTION! Risk of slipping. Do not walk on the water absorber, as this may cause slippery soles. Do not ingest/not for internal use. Pandser is not liable for damage or consequential damage resulting from incorrect use or incorrect application of Pandser Redry Shield. The user is responsible for the correct use and processing of the product in accordance with the applicable regulations and instructions from Pandser.
